## 洛克系列

洛克系列以流动的线条结构来构建产品的整体造型。让原本静止的产品有了流动活跃的感觉。以柔克刚，突破常规。用艺术的思维凝结生活的热情，设计者旨在以以一种时尚的外观、优质的选材、实用的功能完美结合来装点一个的宁静的空间。

洛克无论是框架还是细节，都更加侧重于功能的实用性，坐感的舒适性。微妙的设计让产品本身更加精妙绝伦。

The Rock series uses a flowing line structure to build the overall shape of the product. The original static product has a flowing and active feeling. Break through the routine with the soft. Using artistic thinking to condense the passion of life, the designer aims to decorate a quiet space with a perfect combination of fashionable appearance, high-quality materials and practical functions.

Whether it is the framework or the details, Rock focuses more on the practicality of the function and the comfort of the sitting sense. Subtle design makes the product itself more exquisite.
